

NESTOPIAA

Introduction

We elevate the response to the imaging needs of small clinics to the next level.

Solution

1

On-Premise PACS

Advanced PACS, equipped with features designed to assist radiologists and dentists in achieving accurate and rapid diagnoses.

2

Dental PACS

It is a specialized type of PACS designed specifically for dental imaging. It allows dental practitioners to capture, store, distribute, and view dental images.

3

RIS

Optimizing radiology operations with automated workflows, overseeing imaging orders from admission to discharge for seamless management.

Solution

4

Cloud-hosted PACS

a modern solution for managing and accessing medical imaging data, empowering healthcare providers to deliver high-quality care more effectively and efficiently.

5

DMS

Ensuring health protection by optimizing X-ray radiation dosage, It is a solution developed for the collection, analysis, and utilization of radiation dosage data.

6

VNA

Vendor-agnostic design for storing and managing images from various systems, facilitating interoperability in multi-device healthcare environments.

7

DICOM Viewer

Empowering universal access to advanced medical imaging tools with our free DICOM viewer, revolutionizing engagement with DICOM files.

We take pride in offering tailored solutions to meet **the unique imaging needs of small to medium-sized** healthcare enterprises.

Our expertise lies in providing PACS solutions specifically designed for **dental clinics, dental radiology clinics, sonography clinics, mammography centers, and other small-scale healthcare facilities.**

One of our standout features

Our ability to seamlessly convert film-based DICOM files, including sonography and angiography films, to DICOM MPEG4, making them easily accessible through web-based platforms. Our focus on serving SMEs is reflected in our commitment to delivering **cost-effective** and **hassle-free** solutions.

Here's why NESTOPIAA shines:

1. Pay only for what you use with our usage-based billing.
2. Scale your operations effortlessly with our seamless solutions.
3. Enjoy independence with no vendor lock-in.
4. Say goodbye to annual support fees. we've got your back.

Eager to see our software in action?

Don't miss out on our **1-month demo offer** and witness firsthand how it can transform your practice. Whether you're already using a PACS system or not, we urge you to give ours a try alongside it to truly appreciate the difference. Plus, we can implement it for you remotely in just 15 minutes!
